

**WE'RE
HIRING!**

Part-time Medical Assistant

We started Beargrass Family Medicine with the goal of providing slow paced, exceptionally good primary care in a welcoming environment. As our practice grows, we're looking to bring on an additional team member. We might be a good fit for you if you:

- **Would like to work two days per week**
- Desire a small, low-volume, private practice setting
- Have 5 years of experience, possibly less for the right candidate
- Are willing to help out with whatever needs to be done - we all share responsibilities including answering phones, taking out the trash, etc (including the docs)

Please call our office at 510-1800 to learn more.
